FOR IMMEDIATE RELEASE

STATE ROUTE 58 COLD PLANE AND OVERLAY PROJECT

SAN BERNARDINO—The California Department of Transportation (Caltrans) will begin work next week to replace the asphalt and concrete surface of the State Route 58 (SR-58) roadway from the San Bernardino County - Kern County line to approximately 8.6 miles East of Kramer Junction.

The \$2.2 million dollar project will place a preventative treatment on the roadway after the cold plane and overlay portion is complete. The 13 mile maintenance project will require lane closures from 11:00 p.m. to 3:00 p.m. of the following afternoon with work scheduled for Monday through Thursday. For approximately 16 hours during the week, one of two lanes will be closed within the construction zone and a pilot car will be utilized for 1-way traffic control. Delays are expected due to the nature of the work and duration of the lane closures, so please plan ahead. Resurfacing the roadway is a time-intensive task with safety consideration for both workers and motorists.

The project is scheduled to begin next week and is expected to conclude by the end of 2017, weather permitting. Please be mindful of the lowered speed limits throughout the construction area: Slow for the Cone Zone!

Know before you go! To stay on top of roadwork in Riverside and San Bernardino Counties go to www.caltrans8.info and sign up for commuter alerts. View traffic conditions at <http://quickmap.dot.ca.gov>.
